## SOME UNUSUAL PLANTS.

### DOUBLE PYRETHRUM —

(PAINTED DAISIES)

We have tried many of the double Painted Daisies and have selected a deep rose form as the best as yet. Fall planting is best for these.

\$ .25 each      5 for \$1.00

### TROLLIUS LEDEBOURII — ORANGE

(GLOBE FLOWER)

A good June flowering perennial for shade. Orange yellow flowers surmounting delphinium like leaves on 15 inch stems.

\$ .20 each      3 for \$ .50

### CAMPANULA POSCHARSKYANA — THE (SERBIAN BELL FLOWER)

The hardiest and most vigorous of the dwarf Campanulas. Forms 5 inch mats of blue bells. Establish some now for spring bloom in your rockery.

\$ .25 each      5 for \$1.00

### PULMONARIA SACCHARATA — THE (SPOTTED DOG)

We have a few of this Irish cousin of our Mertensia to offer. Heads of Rose flowers turning to Blue follow one another from February through May. The handsome spotted foliage alone makes the plant worthwhile.

\$ .35 each      3 for \$1.00

### BRONZE LEAVED AJUGA

This bronzy leaved form of our common Bugle Plant affords a new color note in ground covers. Sun or shade.

\$ .15 each      7 for \$1.00

### CAMPANULA RADDEANA

A rather rare Campanula from above Tiflis flowering in June with large intense violet bells on 8 inch stems. Easily grown in the sunny rock garden.

\$ .20 each      6 for \$1.00

## SWISS ALPINE ROSE

### ROSA ROULETTI

This tiny rose has been in cultivation for many years and for a time was lost. It was rediscovered in a Swiss dooryard garden and has since swept the world.

It is everflowering and though only six inches in height is perfectly hardy in the open garden

\$ .25 each      5 for \$1.00

### DELPHINIUM SEED

This seed is absolutely fresh, collected from the finest spikes of the summer's bloom. Seed planted now will produce nice seedlings that can be permanently planted in the border next spring.

English Hybrid — Fine Mixture best double varieties.      Large packet, \$ .25  
Belladonna—Vigorous Light Blue.

Large packet, \$ .25

ROCKNOLL NURSERY, FOSTER, O.

## COTONEASTERS — ROCK SPRAY

We offer for fall planting potted plants of the best two dwarf Cotoneasters we have found. Both are dwarf evergreen shrubs suitable for the rockery.

C. dammeri radicans.

Originally introduced from China by the Bureau of Foreign Plant Industry at Washington this plant has proven itself to be a fine ground cover for rough rock work. Its tiny evergreen leaves are interspersed in fall with bright red berries.

\$ .35 each      3 for \$1.00

C. Rubens

This plant forms a dwarf bushlet a foot high and does not creep as the above. One of the best evergreen shrubs for the rockery.

\$ .35 each      3 for \$1.00

IF POSSIBLE THE FOLLOWING PLANTS  
SHOULD ALWAYS BE PLANTED  
IN THE FALL.

### ORIENTAL POPPIES

As these plants rest in July and start rapid growth in fall then is the time to plant.

Mrs. Perry — Large Pink Flowers

Joyce — Rose Pink — Very vigorous

Lulu A. Neely — Brick Red — Not the old orange Red.

Roots \$ .15 each      7 for \$1.00

### CORAL BELLS — HEUCHERA

H. Brizoides. The best grower. Tall Pink spikes.

\$ .15 each      7 for \$1.00

### PRIMROSES — PRIMULA

The primroses as their name signifies are among the first flowers to bloom in the spring. We have large plants that are now setting buds for their next spring bloom. Mixed colors.

\$ .15 each      7 for \$1.00

---

WE PRESENT A LIST OF PLANTS, BULBS,  
AND SEED THAT ARE BEST PLANTED IN  
THE LATE SUMMER AND FALL.

Due to the excellent growing weather prevailing this summer we feel that all gardeners should take advantage of the fine stock available and establish the things this fall in your garden to produce a more finished effect for spring bloom. In the spring there are always so many things to do that any planting made in the fall will be just so much work saved for the busy time.

FREE DELIVERY

In an effort to persuade more people to plant in the autumn we are offering to deliver free of charge all orders from this folder of \$1.00 or more. If you feel that you cannot visit the nursery this fall just write us and your plants will be shipped promptly.

Ohio Customers. Please add Sales Tax.

**ROCKNOLL NURSERY**

BELDEN C. SAUR, Foster, Ohio.

On C. C. C. Highway Telephone Loveland 2987

Unusual Plants at Unusual Low Prices.

**BULBS**

**MAGIC LILY or HARDY AMARYLLIS**

*Lycoris squamigera*

The magic Lily is a hardy bulb belonging to the Amaryllis family. 30 inch high clusters of large lily like pink flowers are produced in August either in sun or shade. The name, Magic Lily, arises from the fact that the narcissus like leaves that appear in the spring have died down by the time the flowers appear, jumping as if by magic from the bare earth almost over night.

Large bulbs \$ .50 each      \$1.25 for 3

**ANEMONE APPENINA — Blue woods Anemone.**

Flowers in late April with exquisite blue flowers. Fine for a shady spot.

\$ .10 each      \$1.00 per dozen

**ANEMONE BLANDA**

Like A. Appenina but earlier. A good companion for Primroses.

\$ .10 each      \$1.00 per dozen

**REGAL LILY—*Lilium myriophyllum***

The well known fragrant Regal Lily may now be enjoyed by all gardeners. Flowering sized bulbs.

\$ .10 each      3 for \$ .25.      \$1.00 per dozen

**CORAL LILY—*Lilium tenuifolium***

The Siberian Coral Lily gives the needed splash of color in the June rock garden.

The bright coral flowers borne on 12 inch stems are a fine addition to the sunny rock garden.

\$ .10 each      \$1.00 per dozen
